

Easy Skirt Combo

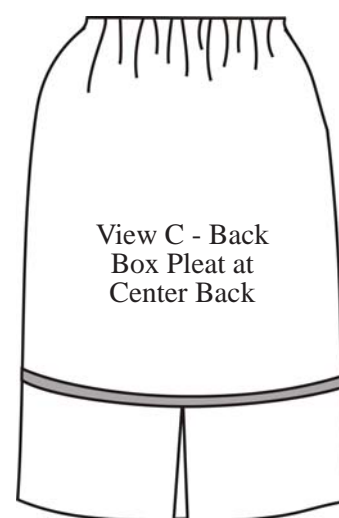

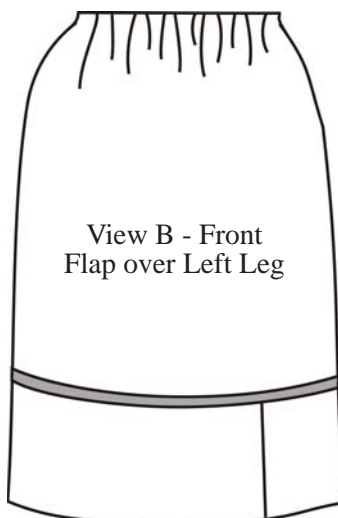

This collection of easy skirts includes 3 different versions. Each skirt is quick to make and stylish to wear. The elastic waist makes for wearing ease and the optional lining is a breeze attach. Instead of the usual walking vent that is required for walking ease, these skirts accomplish walking ease by allowing an opening in the design of the lower panel. View A is simply left open at one side, View B is lapped over the left front thigh and View C has a box pleat in the center back.
