

Mayan Skirt

Fitted through the waist and hip area for a smooth, slimming profile - with flare designed into the lower layers for a slight fullness. There are no darts at the waist, so fitting is all on the side seam. The optional contrast strips between the layers add a bit of fun. This skirt works well in cottons for a fun, summer skirt. The lower fullness in the skirt, is really at it's best when made up in a softer fabric with more drape and is quite professional or elegant - depending on the fabric of choice.
